

Hozelock UK Garden Irrigation & Automatic Watering Systems

Poly Fittings

Well designed fittings for the establishment and management of low pressure micro irrigation systems. Used in conjunction with standard low pressure poly tubing. Trouble free, long life performance. Antelco's extended range of Ratchet Clamps and Fittings now covers the most popular sizes of in-line drip tube.

FEATURES

- Simple design.
- UV35+ 'O'-Ring™ is silicone to resist ultra violet degradation.
- UV stabilized materials for long life.
